

December 2021

In order to raise awareness of cyberbullying and to determine how familiar the teachers at ZŠ Lesní are with the subject, our team created and administered a questionnaire on the types of cyberbullying. Topics covered in the questionnaire were: happy slapping, sexting, exclusion, flaming, cyber harassment, cybergrooming, and cyberstalking. The results and any questions that arose in relation to these topics were then shared and discussed. Below is a graph of how our teachers fared.
