

The “Synergies” Mobility in Spain

In October 2022, our Erasmus+ project took us to the beautiful country of Spain. We visited some gorgeous and historical sights in Barcelona, as well as the flagship Piarist school, the Escola Pia de Catalunya, under which Escola Pia Olot functions, where we enjoyed a lecture on the history of the school system and the principles of the curriculum.

From there, we travelled to the picturesque city of Olot, in the Catalonia region of Spain. Upon our arrival at the Escola Pia Olot school, we were treated to a warm welcome by students, who were also our tour guides for the day.

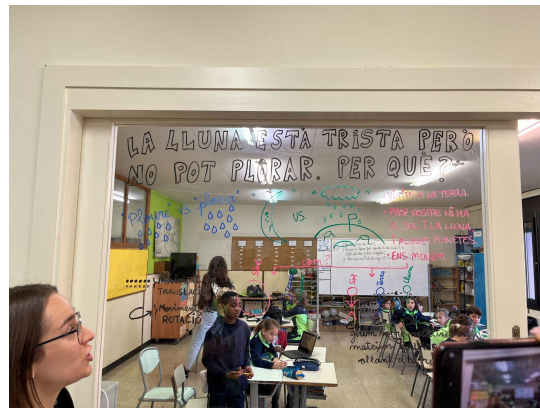

Once our tour was over, the entire Erasmus+ “Synergies” team enjoyed a wonderful cultural programme based on traditions of the school and the city of Olot. Full of singing and dancing, all age groups of children were involved.

We were also invited to observe lessons in the third and fifth grades.

Finally, we participated in a seminar about disadvantaged students and how to support them in their journey of education.
